Update from the Administrator

As we begin to see the first signs of spring, it is always a welcome reminder of new beginnings and the warmer days ahead. After a long winter, it is wonderful to see the change in seasons.

Spring also brings exciting progress at the Villa. Construction on the Small House addition continues to move forward, with framing well underway. Trusses are now being installed, which will be another exciting milestone in the project. This new space will create a more home-like environment with 12 private rooms and private bathrooms, designed to support Elders who thrive in a smaller setting.

You may also notice activity at the front of the Villa as work has begun on the new child care centre. This project is another exciting addition to our campus and is currently scheduled to open in December 2026.

Thank you to everyone for your patience as these projects continue. We look forward to sharing more updates as construction progresses and appreciate the support of our residents, families, staff, and community during this exciting time at the Villa.
